

Workshop Ideas

Scroll down to see some wonderful workshop ideas which will definitely make this festival memorable for the kids.

Chocolate School Workshop

OBJECTIVE: Develop children's skills through learning and making something unique. As a result, kids will create products that are not on the market. They will learn how to make it and they will know how to taste and identify the good, bad, and healthy chocolates

Chocolate School Workshop

Our teacher is an expert in the chocolate industry, She creates creative curriculum and published a book called CHOCOLATE SCHOOL.

She conducted workshops with Ladies Clubs in Sharjah, have done book exhibitions, and workshops with Dubai General Library with the Ministry of Education, and many more.

Baking Station

Objective

Cultivate kids' interest in pastry and baking

Instead of just going around the play area, kids who have interest in baking have the perfect station for themselves. Create their own Saj and Manoushe, why not?

In this baking station, all the things needed to create different pastries will be there. Kids will be given their aprons, hats, ingredients, and all the essential equipment. They will stay in the station's workshop area as the baking teacher teaches them step-by-step on how to make their chosen pastries. Meanwhile, they design their own with the flavors and decorations as they like. And until they reach the final step of pastry making, the best part comes - they can take home or eat the pastries that they made!

PAINT YOUR OWN COOKIES WORKSHOP

OBJECTIVE: Create a fun way of developing creativity

For our young artists, instead of painting on papers which are fairly common everywhere, we will make it more interesting for them by letting them paint their own cookies which they can actually eat afterwards!

This activity is a hit in kids parties and birthdays and for sure it will be the same for our kids in the food festival. Kids get to use safe food colors and brushes to personally design their cookies.

Kits will be provided that include plain cookies, piping bags with colorful icing and sprinkles which they can enjoy decorating with.

Workshop Teacher: Our teacher is a freelance cake artist with a diploma in Culinary arts from the Royal Academy of Culinary Arts (affiliated with Les Roches).

CRAFTS WORKSHOP

Creativity and art is limitless. In this workshop, kids will have a hub that allows them to be more creative with their output.

We will provide them with all the materials needed and as you see on the photo and they can create artworks such as colored sheets, cards, 3D cutouts, and other handcrafts.

Workshop Teacher: Our teacher is a creative that worked for The Five Senses nursery center in Sharjah helping children develop their creativity through different arts and crafts.

FINANCIAL LITERACY FOR KIDS AND TEENS: SAVING, INVESTING, BUDGETING AND BEYOND

OBJECTIVES

Teach kids to be financially smart as early as now

This workshop is an activity good for kids and even teenagers.

Our teacher is a certified accountant who can teach kids with basic steps and tips on how to be financially smart. Teaching kids in the most friendly and understandable manner, our teacher has worked with Watani Emarat Foundation and Emarat Flag.

Talent Show

Objective: Develop confidence in kids to show off their talents and skills

This show will be pre-advertised on the first week of the festival so parents can register and prepare their kids for a 2-minute presentation.

On the day of the show, kids will showcase their talents. There will be a host and judges who will determine the most talented kid and he/she will win a special prize.

Food Making Station

The food making station offers a lot to our kids.

1. LONG TABLE SHARING

We will have a child friendly cooking station providing them with all the ingredients and the teacher will be teaching the kids to create a simple dish.

We will set up a long table and when the kids are done with their simple dishes, they can sit and share it with their parents.

2. KIDS FARM / SALAD STATION

If farms can't go to the kids, we will bring it to them. This will encourage kids to lean towards a healthier lifestyle by making food using fresh ingredients.

- We will provide the fresh ingredients
- Kids choose from them
- They make their own salad

Balloon Making Workshop

Objective

Teach kids to know how to create something unique out of another thing

Balloons have always been attractive to kids. Instead of just buying it, our teacher will be teaching our kids how to make a simple balloons into a lot of interesting shapes.
